FISCAL ANALYSIS

ASSUMPTION

Officials with the **Office of the Attorney General**, the **Department of Insurance**, the **Department of Economic Development–Division of Credit Unions**, the **Office of the Secretary of State–Securities Division**, and the **Office of the State Courts Administrator** assumed this proposal would have no fiscal impact on their agencies.

In response to previous similar legislation, officials with the **Department of Economic Development–Division of Finance** assumed no fiscal impact to their agency due to the proposal.

Officials with the **Office of the Secretary of State (SOS)** assume the Divisions of Finance and Credit Unions will promulgate rules to implement this bill. Based on experience with other divisions, the rules, regulations and forms issued by the Divisions of Finance and Credit Unions could require as many as twelve pages in the Code of State Regulations. For any given rule, roughly half again as many pages are published in the Missouri Register as in the Code because cost statements, fiscal notes and the like are not repeated in Code. These costs are estimated. The estimated cost of a page in the Missouri Register is \$23.00. The estimated cost of a page in the Code of State Regulations is \$27.00. The actual costs could be more or less than the numbers given. The impact of this legislation in future years is unknown and depends upon the frequency and length of rules filed, amended, rescinded and withdrawn.

Oversight assumes the SOS could absorb the costs of printing and distributing regulations related to this proposal. If multiple bills pass which require the printing and distribution of regulations at substantial costs, the SOS could request funding through the appropriation process. Any decisions to raise fees to defray costs would likely be made in subsequent fiscal years.

<u>FISCAL IMPACT - State Government</u>	FY 2002 (10 Mo.)	FY 2003	FY 2004

FISCAL IMPACT - Small Business

This proposal could have a direct fiscal impact on small financial institutions.

DESCRIPTION

This bill establishes compliance with the Federal Gramm-Leach-Bliley Act of 1999. The federal act adopts minimum standards prohibiting certain disclosures of nonpublic personal information by financial institutions to third parties and allows states to adopt more stringent rules. The bill allows any state agency that regulates financial institutions to adopt rules that are no more restrictive than the minimum standards established in the federal act.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space. The bill has an emergency clause.
